

AIRCRAFT SEARCH AND ACQUISITION SERVICES

Our Experience is the DIFFERENCE !

"In your initial proposal, you mentioned that CCI's experience will make a difference, and that difference was substantial... I assure you, before we consider another aircraft, CCI will be the first call I make..." -Letter from a CCI client

Whether you have an established flight department or are considering your first aircraft purchase, Corporate Concepts International's market knowledge, technical skills, and 30 years of aircraft transaction experience will help ensure a successful aircraft acquisition. CCI provides consulting and advisory services daily to worldwide clients regarding their corporate jet, modified VIP airliner, and helicopter purchases. CCI's acquisition advise has saved numerous clients money and time by assisting them in defining and achieving their aviation objectives and options. We help manage your entire aircraft acquisition process from start to finish, including conducting an on site physical aircraft evaluation, and managing the pre-purchase inspection, interior completion or refurbishment, flight tests, delivery and export processes. CCI can also help you locate financing options or develop leasing, charter or alternative ownership or shared usage plans to decrease your cost of ownership. If your aircraft should need interior completion, refurbishment, or additional equipment, CCI can obtain full refurbishing of your new aircraft at CCI's preferred customer, discounted pricing. Any CCI incentives or rebates are always passed on to our clients. Read our "Client Successes" in www.flycci.com to see other's experience with CCI's comprehensive services. CCI offers a 100% Performance Guarantee for our consulting fees to ensure your total satisfaction with the results of our services. Contact us and experience the advantages CCI can contribute to your next aircraft search and acquisition project.
