

Corporate Concepts International, Inc

Announcing New to the Market

1980 Hawker 700A

For Lease

Corporate Concepts International proudly announces this Hawker 700A for lease. The Hawker 700 is uniquely noted as an extremely quiet mid-size jet. With a high performance quality and large cabin area, the Hawker 700 is perfect for short or long range flights. Without the noise that some business jets produce, the Hawker 700 is capable of entry into any airport nationwide or worldwide. The Hawker 700 easily seats eight passengers, travels at 450 mph, and has a range of approximately 1,950 miles. Duncan Aviation has recently completed a 48 month inspection and landing gear overhaul in February 2009 making the aircraft ready to go. Contact us today for more information or to schedule a viewing of the aircraft and to see how you can lease this aircraft today.

This Hawker 700A features a four-place club arrangement with fold-out tables in the forward cabin area and a three-place divan opposite a single forward facing seat in the aft cabin. An aft galley and aft lavatory complete the executive interior. The engines and APU are currently enrolled in the Honeywell MSP engine program.

Total time: 10,175.0 hours

Total cycles: 6,786 cycles
